

**ITEM 022140**

**Item 0221401 – STREET LIGHT HAND HOLE COVER, FURNISH & INSTALL**

**Item 0221402 – STREET LIGHT HAND HOLE COVER, INSTALL**

**DESCRIPTION**

Work under this item shall consist of furnishing and installing or installing a City-furnished hand hole access covers on City owned street light poles at various locations, or as directed by the Engineer.

**REFERENCED ITEMS**

None

**REQUIRED SUBMITTALS**

Shop Drawings:

Submit 5 copies of shop drawings for Contractor-furnished hand hole covers in accordance with the contract general requirements.

**MATERIALS**

When the street light hand hole cover and hardware are furnished by the City they will be stored at the Public Works Yard at Jennings Road. The Contractor shall pick up the hand hole covers and hardware from the Public Works Yard.

**CONSTRUCTION METHODS**

Prior to installation of the hand hole covers the Contractor shall remove any visible debris from inside the pole base. The Contractor shall then install the appropriate type hand hole cover as directed by the Engineer.

**METHOD OF MEASUREMENT**

This work will be measured for payment by the total number of street light hand hole covers of the type indicated by the Engineer or on the plans installed complete in place and accepted.

**BASIS OF PAYMENT**

This work will be paid for at the contract unit price each for "STREET LIGHT HAND HOLE COVER (TYPE)" installed. This price includes all covers, hardware, labor, tools, and equipment necessary to complete installation.
