**MATERIALS**

None

**CONSTRUCTION METHODS**

**Pole Removal (Day-Time Emergency)**

The Public Works Department will contact the Contractor during the Contractor's normal business hours to request the pole removal service. This service will be considered unscheduled City work, and the Contractor shall have to direct his manpower and equipment from other work to perform this service for the City.

**Pole Removal (Evening/Weekend Emergency)**

The Public Works Department will contact the Contractor during non-business hours to request the pole removal service. Upon receiving the existing condition of the hazardous pole, the Contractor shall deploy the necessary manpower and equipment to remove the pole within 2 hours.

**METHOD OF MEASUREMENT**

This work will be measured for payment by the total number of pole removals completed and accepted.

**BASIS OF PAYMENT**

This work will be paid for at the contract unit price per each "POLE REMOVAL (TYPE)" complete, which price shall include excavation, backfill, disposal of unused excavated material, equipment, tools, all materials labor and incidental expenses thereto.
