

**Notice of Review of the Annual Report for  
The City of Hartford Stormwater Management Plan**

The Stormwater Management Plan (SWMP) for the City of Hartford was developed to meet the requirements of the Connecticut Department of Energy & Environmental Protection (DEEP) General Permit for the Discharge of Stormwater from Small Municipal Separate Storm Sewer Systems (MS4s), issued January 20, 2016 and effective July 1, 2017.

An Annual Report summarizing the progress made implementing the SWMP during 2025 will be available for the 30-day public review period beginning February 15, 2026. At this time, we are soliciting questions and comments from the public. The public review and comment period will end March 14, 2026.

You can view a copy of the current Annual Report and the SWMP at <https://www.hartfordct.gov/Government/Departments/Public-Works/Engineering-Division#section-4>. The 2025 draft MS4 Annual Report will be posted at the link found above beginning on February 15, 2026. A hard copy of the draft 2025 annual report will also be available at the Public Works Office at 50 Jennings Road in Hartford, during regular business hours, Monday through Friday from 8:00 a.m. to 4:30 p.m. beginning on February 17, 2026.

Questions and comments can be directed to:
